

What is NDG?

NotDeadGuy is a unique 10,000 NFT collection on the Ethereum blockchain.

Story: One day, an invitation comes to the members of the centralized system from the most unexpected place. This place is a decentralized, free and exciting metaverse. Those who accept the invitation try to take a place for themselves in this new world.

Here comes the story:  [Story of NotDeadGuy NFT](#)

What are the NDG Advantages?

Owning the NDG NFT collection is an invitation to join an exclusive metaverse. In this metaverse, in addition to daily/weekly/monthly income sharing, it gives the chance to be prioritized in special events and every new project. It also grants early access to the metaverse in development. In this metaverse, income can be generated with the SNDG token.

Marketplace Fee Distribution

The transaction fee from market sales will be redistributed to our community.

- **1% will be transferred to the original minter of the NotDeadGuy NFT**
- **2% will be distributed between all NDG holders.**
- **2% will be distributed to the 20 wallets with the highest amount of trades in our marketplace (weekly event)**

NDG Metaverse

Have you ever thought of being born at the beginning of the world and starting over?

If you're wondering, you'll love the metaverse we're developing. Of course, you can only access this world if you have the NotDeadGuy avatar.

You can live freely in a world full of unlimited possibilities. Moreover, in exchange for your time, you also earn SNDG tokens that you can spend in the real world.

Use the unlimited resources of the Metaverse to locate your settlement, build, evolve, and grow construction. Trade with other avatars, sell raw or processed materials on the marketplace or build incredible constructions for yourself using these materials. If you wish, you can sell the constructions you have built as NFT on the marketplace. Constructions sold through our Marketplace entitled Metaverse citizenship to the avatar who purchased it.

Please note that as the years go by, some events that step into the new ages will occur in the metaverse. Just like in the real world, those events will cause brand new beginnings.

While you're having a great time on the Metaverse, there are two ways to earn SNDG tokens that you can spend in the real world.

- You earn SNDG for every hour you spend.
- You can sell the materials you collect or the constructions you build on our marketplace!

We are using Unreal Engine for metaverse development and you will enter the world with your wallet.

After all NDG Avatars have been sold, the metaverse waiting area – the purgatory – will become active. You can meet and chat with other NDG owners in this area.

In Q2-2022, we will invite you all to the NDG Metaverse.

Here is a quick look around of the metaverse: [!\[\]\(6a9b39b98eb945faa14c645ec99e4eaa_img.jpg\) NotDeadGuy Avatars for Metaverse!](#)

Here are some illustrations about the metaverse

when you walk through the gate;

How do I buy it?

You will need a Metamask wallet for purchasing the NDG NFT.

You can create your Metamask wallet here: <https://metamask.io/>

After opening your wallet, you will need to load enough balance into it. You can top up from any exchange or other wallet by sending the balance to your Metamask wallet. Copy the address of your Metamask wallet, go to your other wallet, or exchange and send the balance you want to the wallet address you copied.

Note: When sending the balance, please note the gas fee payable when you mint the NFT. for the current gas fee, you can use this address: [Gas Tracker](#)

About NDG Presale

What are the advantages?

We only have 999 seats available for presale. The presale will only be open for 2 hours before the public sale. You will have the highest revenue share when you are among the first to buy before all NFTs are sold out.

What are the presale registration requirements?

You can participate in the presale only with the events held.

If you have earned the right to register for the presale thanks to the events, you can find detailed information after the end of the event.

How to register for presale?

The right to participate in the presale is given to people on a list that is called "Whitelist".

To join the Whitelist;

Send your wallet code to our NDG Waiter, NDG Diver, NDG Lawyer mods via our discord channel. Your submitted wallet code will be registered on the whitelist.

When you are added to the whitelist, you guarantee your right to mint. Two hours of presale time will be given before the Public Sale. From the moment the presale opens, you can mint tokens at any time.

You will be able to convert the tokens you obtained in the presale to NFT after the public sale ends.

How do I stay safe?

Here we want to talk about a few things to keep your wallet and NFTs safe. We know that there are many scammers in the ecosystem and we want to inform you of the few ways they use it.

Fake mint links via private message

Scammers who reach you via our social media (especially discord) channels may send fake mint links under the presale name. In such cases, please inform our mods before clicking on the links.

Please note, none of our admins will send you the first message.

Opensea fake accounts

Please beware of Opensea that appears to belong to NotDeadGuy. Shopping from fake accounts is an irreversible action.

Don't forget to [follow our Discord](#) channel or our [website](#) for our official links!

Your Opensea NFT is sold out email (Phishing)

For an NFT you exhibit at Opensea, you will receive a "sold" mail as if it came from opensea.

If you receive such an e-mail, do not click any button or link in the email, even if it is from Opensea. Go directly to your wallet and check the balance in your wallet. You can view your updated balance for your NFTs sold directly in your wallet.

"A Wallet That Doesn't Make You Pay Gas Fee"

There is no such thing. Do not use wallets that offer you incredible and imaginary offers.
